Itinerary exposition

The tour includes a walking path in the first day, one cycling touring a total of five stages, starting from the city of Bari and arrival in Monopoli. The roads are mostly secondary low traffic, some parts medium traffic, some road traffic in the country almost non-existent. The fund is mostly asphalted, except for some possible dirt. The trend is mostly flat, there are some ups and downs and some climbs are not particularly demanding.

Tour description

The tour is certainly one of the most fascinating of Puglia for the heterogeneity of the landscape crossed. Starting from the city of Bari with a free visit of the old town and of the neighbourhood nineteenth century, it will proceed in a south-easterly direction along the Adriatic coast and then going to discover features country towns and attractive places of the South-East of Bari. In these territories can not linger to admire the subterranean caves of Castellana, the beautiful terraces overlooking the sea of Polignano, the amazing trulli of Alberobello (declared World Heritage by UNESCO), the villages of the valley Itria, an example of harmonious country, the famous city white Ostuni and much more. Certainly the route most compelling and representative for those who have never been in Puglia.
