Salento is the most coveted goal of Puglia in the summer because it is full of golden beaches and cliffs paradise, certainly from a landscape point of view is the most interesting area.

Particularly beautiful to admire and photograph are the stretches of coast to Otranto and the Alimini lakes, but also sand from Ugento Gallipoli or the natural park of Porto Selvaggio. Among the most characteristic traits for historical and artistic worth mentioning Lecce, baroque city par excellence, Otranto with its charm millennial enclosed by the Aragonese walls and a beautiful view of the sea and Gallipoli, with its old town made up of walls, ramparts and towers, perched on an island of limestone, which gives it a unique charm.
